

## Narragansett High School Senior Project Self-Evaluation Reflection

---

***This is your final reflection, a summative reflection and self-evaluation of your entire Senior Project experience. As such, this reflection will be longer than the others because it is more detailed.***

### ***I. Introductory Paragraph:***

Briefly describe your Senior Project, including your overall topic, mentor and fieldwork, research paper topic, and your product. Include the dates when you started and how much you completed, the number of hours you spent working on your project, the total number of mentor hours. If you completed your product, provide the estimated number of hours working on it to finish it and the names of any people who provided assistance when you were making the product.

### ***Instructions for body of reflection***

#### ***First Body Paragraph:***

### **II. How has this project changed/impacted you? Choose at least one question/prompt to answer thoughtfully.**

- Explain how completing the product has prepared you for next year as well as for future years.
- Describe a key moment when your understanding of the project changed.
- Very specifically describe how the project has stretched you emotionally, intellectually, and/or physically.

#### ***Second Body Paragraph:***

### **III. What opportunities and/or challenges did you encounter? What changes would you make? Choose at least one question/prompt to answer thoughtfully.**

- What was it like to develop a working relationship with your mentor? What did you do to create good rapport and earn the respect of your mentor?
- What problems did you encounter when working with your mentor? How did you overcome any problems or obstacles that you encountered?
- Describe any other problems you encountered in completing the project and how you solved them.
- Did your product turn out the way you planned? If not, why? If yes, elaborate on the specific factors that led to the success of your product.
- If given the opportunity to re-do your project, what changes would you make?

***Third Body Paragraph:***

**IV. Self-Satisfaction/Sense of Accomplishment - *Choose at least one question/prompt to answer thoughtfully.***

- Describe the time you felt the most satisfaction in the process of working on your project.
- Which part of the assignment did you enjoy the most?
- What is the most important skill you have acquired during the senior project?

***Fourth Body Paragraph:***

**V. Optional - *If you do not answer this question, you must answer at least two questions from one of the other sections.***

- Please relate any additional information about your product or experience that you would like the reader to know.

**VI. Conclusion:**

Describe the most important and/or lasting effect the Senior Project experience has had on you.
